

ACRILAC® Cat

Acrilac® Cat Breast Milk; It helps the kittens to meet their nutritional needs, ensure their development and activate the immune system in case of insufficient mother's milk or if their mothers are weak. Precautions have been taken against lactose intolerance with the formula with reduced lactose content.

Acrilac® Cat; It not only contains the protein and vitamins necessary for the development of the offspring and the healthy nutrition of weakened mothers, but also provides the energy they need. It supports the development of offspring with its biotin and folic acid content. In addition, it contains taurine for kittens.

Content; Milk powder, Whey Powder, Starch, Rice Flour, Fish Oil, Vitamin and Mineral Complex
Purpose of Usage:

Acrilac® Cat is formulated to meet the nutritional needs of kittens and mothers who are weak before and after birth.

Usage:

For Kittens (1-20 days old) 1 tablespoon of **Acrilac® Cat**, 100 ml (1 tea glass),
For kittens over 20 days old 2 tablespoons of **Acrilac® Cat**, 200 ml.
The mixture, which is prepared by dissolving it in warm water, is drunk in bottles 3-4 times a day.

The prepared mixture can be stored in the refrigerator for up to 12 hours. The mixture, which is taken out of the refrigerator, is heated in a bain-marie and given to the puppies.

(BAIN-MARIE: It is the way of heating the food by placing it in hot water.)

Commercial Presentation: Offered for Sale in 200 Gr Doypack Packages.
